INCRIMINATOR
AUDIO

The 165C Component set is Incriminator Audio's first entry into the door speaker market. The 6.5" midbass woofer is all black with a woven fiber matrix cone, 1.25" voice coil, and a 10.1 oz motor. The 1" tweeter is a silk dome for nice smooth high end response. The set includes an external crossover with the IA logo, and black speaker grills for surface mount applications. This component set truly has a high end sound for a budget price.
